For Immediate Release: June 13, 2017

## **2016 Cook County Tax Rates Released**

The 2016 property tax rates, calculated by the Cook County Clerk's office for the county's more than 1,400 taxing agencies, were released today - the final step in the tax process before bills are mailed out.

The average City of Chicago residential taxpayer should expect to see a roughly 10 percent increase in their tax bill while North Suburban Cook County homeowners will see their property tax bills go up 6.5 percent on average and South Suburban homeowners will see an average increase of 3.9 percent.

A tax bill is based on of the amount of money sought from taxing districts (the levy), the property's assessed value, the state equalization factor, and the applicable tax rate.

Tax bills will be due Tuesday, August 1, 2017.

| <b>South Suburbs</b>   | 13.662%                                  | 13.384%                                  | -2.0%       | \$9,023.07                               | \$9,285.69                               | + \$262.62   | +3.0%       |

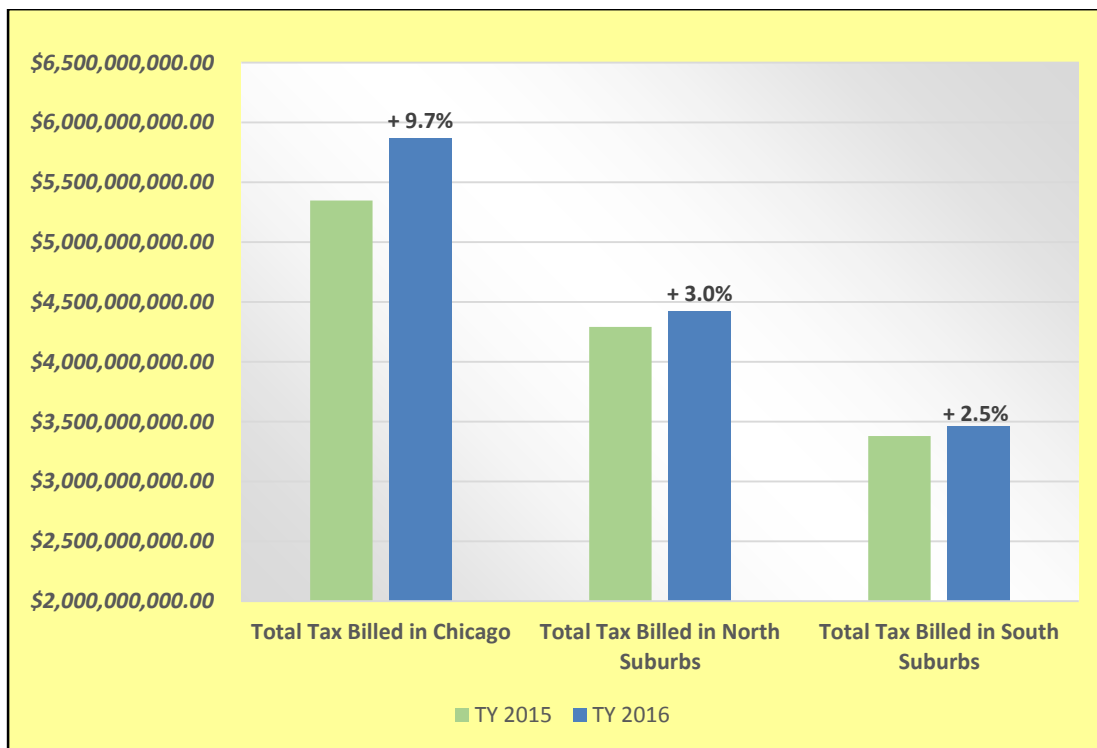

1. Average composite tax rates: Actual taxes may vary within these areas based on actual property values and tax rates.

2. Tax bills based on an average commercial property with market value of \$270,000 in Chicago, \$301,500 in north suburbs (reassessed from \$287,500 in 2015), \$99,000 in south suburbs.

\*\*\*

For the second year in a row, the total of all taxes extended for all taxing districts in Cook County exceeds \$13 billion. Last year the total tax billed in Cook County was \$13.1 billion. This year the total tax in Cook County is \$13.7 billion. The City of Chicago's extension again exceeds \$1 billion, an 8.5 percent increase over last year.

### **Total 2016 Taxes Billed in Cook County by Region**

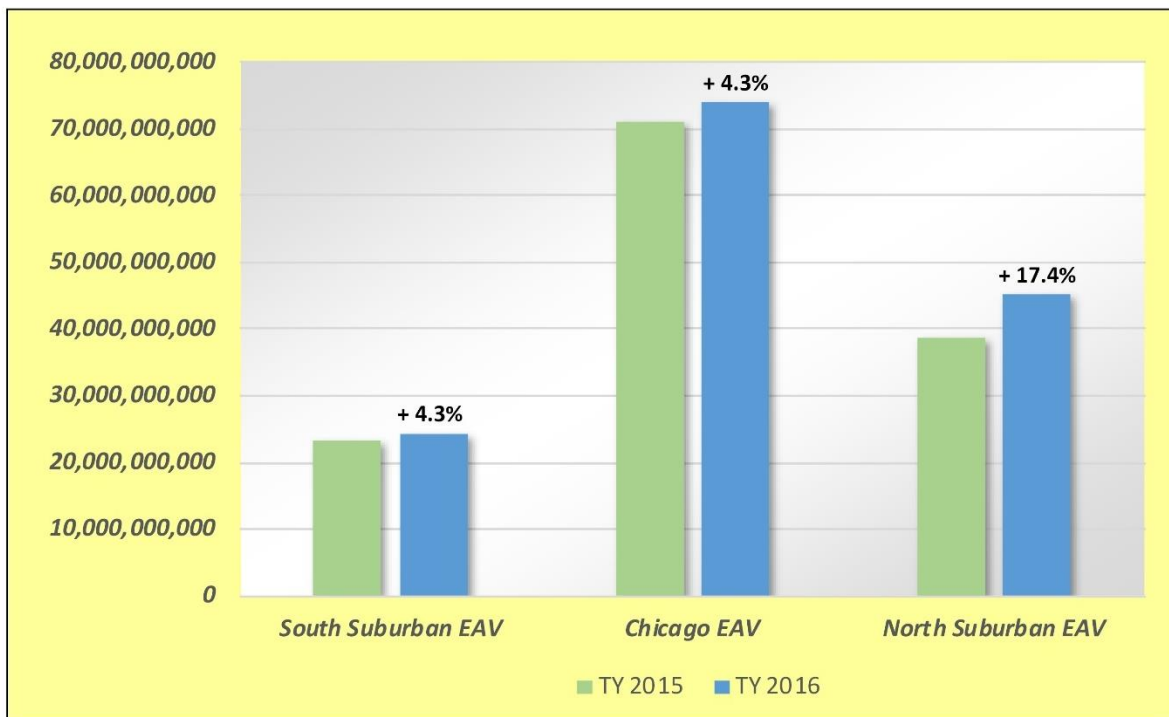

## **TAXABLE VALUE**

Property assessments in Cook County are set by the Cook County Assessor and finalized by the Cook County Board of Review. These assessments are equalized by the Illinois Department of Revenue (IDOR) in order to ensure uniform assessment state-wide.<sup>1</sup> This equalized assessed value, less applicable exemptions, is the taxable value for property.

The overall equalized assessed value (EAV) in Cook County increased by 8.1 percent this year, largely due to the reassessment of the Northern Suburbs which saw assessed values in the northern suburbs increase 11.9% on average. When added to a 5% increase in the equalizer, taxable values in the northern suburbs increased an average of 17.4%. The City of Chicago and the Southern Suburbs, which were not reassessed this year, saw increases in EAV of 4.3%, primarily due to the increase in the equalizer.

**2016 Equalized Assessed Values (EAVs) in Cook County by Region**

## **Impact of Value on Tax Rates**

Due to the lower property value base in the Southern Suburbs, property owners typically see higher tax rates than those in the City or the Northern Suburbs which have a larger taxable value base. Taxing districts such as schools and municipalities still must provide services which are funded by property taxes regardless of this difference in value. As a result, tax rates tend to be significantly higher in the more depressed areas of the County. For example the highest tax rate in Cook County is found in the Village of Ford Heights where property owners pay a tax that is nearly 40% of their taxable value, compared to property owners in the City of Chicago or the Northern Suburbs where the tax bill in some cases is approximately 7% of taxable value.

As Clerk Orr previously indicated, “property taxes are inherently regressive and disproportionately impact

<sup>1</sup> The equalization factor issued IDOR by has increased 5 percent from 2.6685 last year to 2.8032 this year.

people in poorer regions. The overreliance on this mechanism of funding local government compounds existing inequities.” Clerk Orr has consistently called on the state to adopt a fair income tax that allows less reliance on property taxes and renders taxes more equitable for all.

## **Tax Rate Calculation**

Tax rates are calculated by dividing the amount of money each taxing district has requested in their levy by the total taxable value within each district. A taxing agency or district is a body of government such as a school district, library, or municipality, which levies real estate taxes. The tax rates of all districts that service a particular property are added to create the composite tax rate applicable to each property.

## **City of Chicago Increases**

Typically, when EAVs increase, taxpayers will see a corresponding reduction in tax rates. City of Chicago taxpayers, however, are seeing rates increase, due in large part to increased levies from the Chicago Board of Education and the City of Chicago itself. The City of Chicago increased its levy by \$109 million this year as part of a planned four-year property tax increase which began last year. Additionally, the State Legislature approved a \$272 million CPS levy increase to pay for teachers’ pensions which took effect this year. As a result, homeowners in the City of Chicago should expect to see their tax bills increase 10.0 percent on average.

## **Lowest Composite Tax Rate**

For the first time since tax year 2008, the lowest composite tax rate in Cook County is not in the City of Chicago. Some taxpayers in the Village of Barrington may now claim that distinction. The City of Chicago’s general composite rate is still the lowest on average of all municipalities in Cook County, but some taxpayers in parts of the northern suburbs will see lower rates than City taxpayers.

## **PTELL**

The Property Tax Extension Limitation Law (PTELL), also known as the “Tax Cap Law” limits the increase in revenue that qualifying districts may collect to the rate of inflation. In most cases, districts this year were limited to an increase equal to the 2016 Consumer Price Index (CPI) of 0.7 percent, the second-lowest increase since the Tax Cap Law began over 20 years ago. Home rule districts, debt obligations, other special purpose funds, and value derived from new property and terminated Tax Increment Financing Districts (TIFs) are exempt from this limitation. Next year, the CPI will limit tax revenues to an increase of 2.1 percent.

## **Transit TIF**

This year, for the first time, the City of Chicago has created a Tax Increment Financing District (TIF) to help fund public transit improvements. This “Transit TIF” is different from other TIFs in that it is not required to demonstrate “blight”, is allowed to run for up to 35 years instead of the typical 23 years, and part of its incremental revenue will be returned to the taxing districts, including CPS. With the addition of this TIF, which is one-mile-wide and extends from North Avenue to Devon Avenue along the Red and Purple CTA train lines, 1 in 4 properties in the City of Chicago are now in TIF. The Clerk will have additional information about TIFs and Transit TIFs available in July.

###

# 2016 Property Tax Frequently Asked Questions

*(Glossary to follow)*

## Are my taxes going up?

Individual tax bills will vary, but property taxes are generally going up for homeowners. How much they change primarily depends on which region of the County you live in. For single family residential properties, *on average*:

- **Chicago (non-reassessed single family property) = 10.0% increase in property tax**
- **North suburbs (average re-assessed property) = 6.5% increase in property tax**
- **South suburbs (non-reassessed single family property) = 3.9% increase in property tax**

### Chicago:

Taxable value in the City of Chicago is up 4.3% on average. With the City and CPS levy increases this year, taxpayers can expect a 4% increase in the Chicago composite tax rate from 6.867% to 7.145%.

While the average single family residential property tax bill in Chicago increased approximately 10%, the average commercial/industrial property tax bill in Chicago increased approximately 9.3%.

### North Suburbs:

The northern suburbs were reassessed in 2016, resulting in a 17.4% increase in taxable value (EAV). The total tax billed by taxing districts in the northern suburbs increased 3%. North suburban residential property values were reassessed approximately 22% higher on average, while commercial property values increased approximately 10%, shifting more of the north suburban tax burden to residential properties. The average commercial property may actually see a slight property tax reduction this year.

### South Suburbs:

Most residential properties in the south suburbs saw no change in assessed value from last year to this year. Taxes for those properties may see an average property tax increase of 3.9% over last year. Taxes are going up primarily due the 5% increase in the state equalizer and levy increases permitted under the tax cap law and property value added through new construction.

*Note: Suburban tax rates and amounts vary greatly due to the large number of municipalities, school districts, park districts and other taxing districts which provide different services at different levels of taxation. Specific areas will see larger or smaller tax increases, and some areas may see decreases.*

## How does the triennial assessment of property impact tax bills in Cook County?

Pursuant to state law, the Assessor reassesses property in one of three geographic regions in the County every three years (triennial assessment). In 2016, properties located in the northern suburbs were reassessed. In 2015, property in the City of Chicago was subject to reassessment, while property in southern suburbs will be reassessed later this year. If property values increase due to reassessment, this impacts the tax rate.

*Note: When assessed values increase and a levy remains static, the tax rate will decrease. A tax bill is always a product of the amount of money sought from taxing districts (the levy), the property's assessed value, the state equalization factor, and the applicable tax rate.*

*The state equalization factor issued by the Illinois Department of Revenue (IDOR) has increased from 2.6685 last year to 2.8032 this year. To ensure uniform assessment statewide, IDOR calculates the factor needed to bring the total assessed value of all properties in Cook County to a level equal to 33 1/3 percent of the total market value of all Cook County real estate.*

## Where are the highest tax rates in Cook County?

- Village of Ford Heights has the highest rate at 38.591%
- Village of Park Forest is 2<sup>nd</sup> highest at 35.872%
- City of Chicago Heights is 3<sup>rd</sup> highest at 34.182%

## Where are the lowest tax rates in Cook County?

- Village of Barrington is lowest at 6.520%
- Village of South Barrington is 2<sup>nd</sup> lowest at 6.645%
- Village of Northfield is 3<sup>rd</sup> lowest at 6.713%

Note: For tax years 2009 through 2015, properties in the City of Chicago had the lowest composite tax rate in Cook County. Recent levy increases by the City of Chicago and the Chicago Board of Education have increased the tax rate in Chicago, which now has the 8<sup>th</sup> lowest rate in Cook County.

## Does a high tax rate mean I'll have a high tax bill?

Not necessarily, although the tax rate matters, there are several factors which impact an individual tax bill.

The tax rate itself is driven by the overall assessed value in a taxing district, the state-issued equalization factor, and the district's tax levy request. Individual tax bills are calculated by applying the composite tax rate (the combined rates of all taxing districts servicing that property) to the individual taxable property value.

A property with a high tax rate but a low taxable value may result in a lower bill than a property with high taxable value and a low tax rate.

For example\*:

- A property with a Market Value of \$100,000 multiplied by a rate of 20% would have a tax bill of \$3,937
- A property with a Market Value of \$400,000 multiplied by a rate of 7% would have a tax bill of \$6,982

*\*Residential property is assessed at 10% of Market Value and equalized. The 2016 equalizer set by the State of Illinois Department of Revenue is 2.8032.*

## How does a Chicago tax bill compare to a suburban tax bill for similar properties?

The City of Chicago, with its large commercial and industrial value base, has a relatively low tax rate compared to other municipalities in Cook County. Some north suburban municipalities have lower tax rates than the City of Chicago, but the average tax rate in the north suburbs is still higher, and the south suburbs, with a modest tax base, have the highest tax rates.

\*On average, the 2016 property tax bill for a home with a market value of \$200,000 would be:

- Chicago: \$3,505.62
- North suburbs: \$4,544.80
- South suburbs: \$6,566.73

*\*Because suburban property values and tax rates vary widely, the tax amounts in these regions also vary.*

## **How much of my Chicago tax increase is due to pension levy increases at the City and CPS?**

Approximately 20% of the tax increase for the average residential tax bill in the City of Chicago is due to an increase in pension levies by the City of Chicago. This is the second year of a planned four-year levy increase. Another 60% of the 2016 increase is due to the new pension fund levied by the Chicago Board of Education, authorized last year by Public Act 99-0521. The remainder is due to the typical, more moderate levy increases of other taxing districts.

*\*The 2016 City pension levy increased approximately \$110 million over the 2015 Levy. The Chicago Board of Education levied \$272 million in a new teachers' pension levy.*

## **What's this new "Transit TIF" and what does it mean to my taxes?**

Tax Increment Financing (TIF) is a special tool that municipalities may use to generate money for economic development in a specific geographic area. Properties within a TIF area must meet certain criteria, such as blight, or other indicators of economic hardship in order for a TIF to be established. Other taxing districts, such as Schools, Parks, and Libraries, only have access to the base taxable value within the TIF district at the time its created for its duration (typically 23 years). Any tax revenue generated from the value growth within the TIF is directed to the TIF itself.

Transit TIFs differ from traditional TIFs in that there is no hardship requirement and they may last for 35 years. Additionally, part of the tax revenue generated from the value growth within the Transit TIF is distributed to taxing districts. The first Transit TIF in the City of Chicago is intended to generate revenue to match Federal and State grants to modernize the north side CTA Red and Purple train lines.

## **Are my taxes as low as they could be?**

Illinois statutes allow for several types of property tax exemptions for residential taxpayers. The most common exemptions include:

- Homeowner Exemption
- Senior Citizen Exemption
- Senior Freeze Exemption

Please check your tax bill to learn more and determine whether exemptions were applied. If you have questions about property tax exemptions, please contact the Cook County Assessor's Office at [cookcountyassessor.com](http://cookcountyassessor.com) to learn more and determine if you are eligible for an exemption or Certificate of Error.

Though the time for filing 2016 assessment appeals has passed, you can learn more about appealing your property's assessment for 2017 and beyond at the Cook County Assessor's Office and the Cook County Board of Review at [cookcountyboardofreview.com](http://cookcountyboardofreview.com).

## **What else is new in 2016?**

For the second time, the total of all taxes extended for all taxing districts in Cook County exceeds \$13 billion. Last year the total tax billed in Cook County was \$13.1 billion, this year the total extension in Cook County was \$13.7 billion.

The City of Chicago's extension again exceeds \$1 billion for the second year in a row.

## Glossary of Tax Extension Terms

**Assessed Value:** The fair market value multiplied by the assessment level for a class of property.

**Composite Tax Rate:** The sum of the tax rates of all the taxing districts (municipality, school district, park district, etc.) which service an individual property.

**Equalization Factor:** A factor, established by the Illinois Department of Revenue, used to bring the aggregate value of assessments within Cook County to 33 1/3% of the estimated actual fair market value of all real property in Cook County. This factor, also called the "multiplier," is recalculated by the state each year.

**Exemptions:** For properties and taxpayers who meet certain criteria, all or a portion of qualifying property values may be excluded from taxation under Illinois law. For residential property, a portion of taxable value will be excluded, such as with the homeowner or senior exemptions, if the taxpayer meets statutory requirements.

**Home Rule:** The County of Cook and qualifying municipalities, including those who have elected to operate in this form, may function as home rule units of government. As home rule units, these entities are not subject to tax rate limitations of the Property Tax Extension Limitation Law (PTELL).

**Tax Cap Law:** The Property Tax Extension Limitation Law (PTELL) is a law which allows a taxing district to receive a limited inflationary increase in the property tax extension on existing property within that taxing district, plus an additional amount for new construction. It ensures that property tax revenue may only increase by the rate of inflation.

**Tax Extension:** "Tax Extension" refers to both the amount of property tax to be billed for a taxing district and for the process of calculating the tax rate required to obtain that amount when applied to all taxable value within the district.

**Tax Increment Financing (TIF):** An economic tool that municipalities may use to generate money for development in a specific geographic area. Properties within a TIF must meet certain criteria, such as blight, or other indicators of economic hardship. Other taxing districts, such as Schools, Parks, and Libraries, only have access to the base taxable value within the TIF for its duration (typically 23 years). Any tax revenue generated from the value growth within the TIF is directed to the TIF itself.

**Tax Levy:** A taxing district's request for revenue to be obtained from the property tax.

**Tax Rate:** The tax levy, reduced by statutory limitations, divided by the total equalized assessed valuation of a taxing body. The tax rate is the rate per \$100 of equalized assessed valuation (EAV) that must be paid for the tax year in question.

**Taxable Value (EAV):** The assessed valuation of each property multiplied by the equalization factor, less applicable exemptions.

**Transit TIF:** An economic tool that municipalities may use to generate money to fund specific public transportation projects. Differs from traditional TIFs in that there is no hardship requirement and they may last for 35 years. Additionally, part of the tax revenue generated from the value growth within the Transit TIF is distributed to the other taxing districts.

**2016 Composite Tax Rate = 13.140**

### Four Largest Taxing Districts in Cook County Property Tax Revenue 1994 to 2016

# How Is My Property Tax Bill Calculated?

1. The Tax Rate for each taxing district is calculated:

$$\frac{\text{Taxing District Tax Levy}}{\text{Taxable Value in Taxing District}} = \text{District Tax Rate}$$

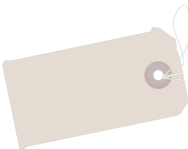

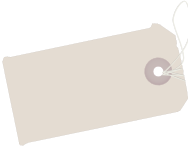

2. The Composite Tax Rate of all taxing districts in your area is calculated:

$$\begin{aligned} &\text{County Rate} \\ &+ \text{Township Rate} \\ &+ \text{Municipality Rate} \\ &+ \text{Grade School Rate} \\ &+ \text{High School Rate} \\ &+ \text{Community College Rate} \\ &+ \text{Park District Rate} \\ &+ \text{Library Rate} \\ &+ \text{Other District Rates} \\ &= \text{Composite Tax Rate} \end{aligned}$$

3. Your Individual Tax Bill is calculated:

$$\text{Individual Taxable Value} \times \text{Composite Tax Rate} = \text{Tax Bill Amount}$$

The property assessment process is the basis for generating property tax revenues that pay for a portion of schools, city and county services, roads, fire protection, public safety, water and sanitation, and other local services.

## SAMPLE REAL ESTATE TAX BILL CALCULATION

The typical homeowner exemption for residential property is \$7,000 (other exemptions may apply). This sample calculation is based on the average assessment increase across all residential property in the northern suburbs and average tax increases in the City of Chicago and the southern suburbs. Individual tax bills will vary based on reassessment values and individual tax rates.
